## SIMPLY MARVELOUS!

SCARCELY eight months ago a medical discovery was placed upon the market bearing the title "THE GREAT SIERRA KIDNEY AND LIVER CURE," and whose virtue was claimed to be the cure of kidney and liver complaints. ITS INTRODUCTION WAS THE SIGNAL FOR ONE OF THE GREATEST SUCCESSSES ever achieved by a patent medicine on the Pacific Coast, as the afflicted quickly ascertained that it was far more efficacious and beneficial than had been claimed, as THE MOST WONDERFUL CURES WERE ACCOMPLISHED IN SUCH A BRIEF TIME as to seem MIRACULOUS. The testimony of hundreds who have been lifted from sickness and misery to health and happiness bears no uncertain sound, and they join in glowing testimonials of universal praise, hoping thereby to induce other unfortunates to drink of the font which restores that which is priceless, health. ONE TRIAL WILL CONVINCE THE MOST DESPAIRING THAT AT LAST A DISCOVERY HAS BEEN MADE which will restore a disorganized system and bring glowing health out of pale and sorrowful decline. One dollar per bottle. Six bottles for five dollars. ALL DRUGGISTS sell these valuable goods. Take no other. OSBURN & SHOEMAKER, Agents.

## A CARTRIDGE ORDER.

### The Russians Want Ammunition.

### AN AMERICAN CONSUL SUICIDES.

### Marriage of the Daughter of Secretary Blaine.

### Rescuing the Bodies from the Ashley Coal Mine.

### Miss Blaine Married.

WASHINGTON, May 17.—Margaret Isabella Blaine, daughter of the Secretary of State, was married at 1 o'clock this afternoon to Walter Damrosch of New York at the residence of the bride's parents, Mansion Place.

It was intended to have the marriage conducted as quietly as possible, but the best efforts of the family were comparatively futile against the wishes of influential friends, and the ceremony was attended by a brilliancy and display not contemplated. The ceremony was performed by Rev. Dr. Douglas, rector of St. John's Episcopal Church, of which the bride recently became a member. The decorations were beautiful in their simplicity.

Three hundred friends were in attendance, including the President and Mrs. Harrison, Mrs. McKee, the Cabinet officers and the ladies of their families, members of the Supreme Court, the entire diplomatic corps, many members of Congress and other representatives of official society at the Capital. After the ceremony the entire company repaired to the dining room and partook of the wedding breakfast.

The newly-married couple left the city for New York, and will proceed straight to their home on Madison avenue. It is their purpose to sail for Europe early next week.

### Boulanger's Last Letter—A Large Order.

PARIS, May 17.—Boulanger has written a letter in which he says he no longer desires any intermediary between himself and his supporters, and therefore dissolves the Boulangerist national committee. The Boulangerist journals publish the letter without comment.

The ammunition factory at St. Etienne has received orders from Russia for cartridges loaded with smokeless powder, equal to a supply for 1,000,000 rifles.

### The Ashley Mine Horror.

WILKESBARRE (Pa.), May 17.—At noon two more bodies of the Ashley mine victims were brought out and identified as Robert Pritchard and Michael S. Halley. The work is progressing rapidly and the victims supposed to be in the pit will probably be recovered before night. Great crowds still surround the opening.

At 1 o'clock two more of the victims were brought up. One was Michael Bennett, and the other was unrecognizable.

### Bank Statement.

NEW YORK, May 17.—The weekly bank statement shows a reserve increase of \$525,900; specified increase, \$319,200. The banks now hold \$2,012,875 in excess of the rule.

### Suicide of a United States Official.

PORTSMOUTH (Eng.), May 17.—Thomas McCarne, Consular Agent of the United States, has committed suicide. No reason is known.

Bar silver, 104 1/4.

### Kidnaped Forty Years Ago.

By Associated Press.

ROCK ISLAND, Ill., May 16.—The climax is soon to be reached in a case so dramatic in its details as to seem impossible. In Savannah, N. Y., forty years ago, a boy named Hiram Gregg, the eldest of a very large family of children, was stolen from his parents, Mr. and Mrs. Robert Gregg. The boy was last seen on the banks of a creek, and his parents supposed he was drowned. After dragging the stream they gave him up as lost. They moved to this city, and the father, who died here a few years ago, was one of the pioneers of the community. Yesterday it was learned indirectly that the missing member of the family is living at Richardson, Wis., under the name of G. A. Gage. The name was given him by his abductor, an unscrupulous woman, who kidnaped him to avenge herself on his parents, with whom she had had trouble. She brought the boy up in ignorance of his own name, and he only learned it a few weeks ago. He will reach here next week, a man 43 years of age and married. The woman who kidnaped him left him when he married.

### Can Live Cheaper Than the Slavs.

By Associated Press.

NEW YORK, May 16.—Secretary Jackson of the State Board of Immigration, says this will be a great year for Italian immigration. It is likely that 50,000 Italians will land here. In 1889 over 40,000 Italians were registered at Castle Garden. "The Italians," Mr. Jackson said, "are supplanting the Slavonians in the mines of Pennsylvania. They have got the science of living down to a finer point than even the Slavs, and they will just as surely drive them from the mining region as the economical Slavonians ousted the more free-living miners of England, Ireland and Wales."

### Today's Races.

By Associated Press.

GRAVESEND, May 17.—In the five and a half furlong race Fordham won, Eon second, Gregory third. Time, 1:11 3/4.

In the mile dash Burlington won, Cynosure second, Now-or-Never third. Time, 1:48 3/4.

The Rudison stakes for two-year-olds, five furlongs, Gray Rock won, Chatham second, Miss Ransom third. Time, 1:06 3/4.

### Short of Air.

By Associated Press.

SHAMOKIN (Pa.), May 17.—The Neilson breaker of fire debris, which fell in the shaft last night, wedged itself and did not drop to the bottom. Forty-four mules are on the various levels, and so far they are getting enough air to keep them alive. The debris is still burning, but the shaft is not on fire.

### Railway Concession.

By Associated Press.

CITY OF MEXICO, May 17.—The Government has granted General Sturm of the United States a concession on a railway from this city to the Pacific coast via Cuernavaca and Oaxaca. It is presumed that the Government is making a return to General Sturm for favors to Mexico.

### Carlisle Elected.

FRANKFORT (Ky.), May 17.—John G. Carlisle was elected United States Senator by the Assembly in joint session.

### Now Is Your Chance.

S. Jacobs, the leading and fashionable merchant tailor of the Furnishing Goods Store, has a choice selection of spring and summer goods which he offers the public that will defy competition, both in workmanship and quality of goods. Why do you send away for your clothing when you can get better satisfaction at home? You must remember that all my clothing is made at home, and not sent to San Francisco to be made as some of the merchant tailors do, especially when Cheamen and employed. I hope you will give me a call.

### Their Third Marriage.

August Young and Emma C. Ensign were married at Selma, Fresno county, for the third time last Thursday. After a few years of their first marriage, which occurred in the East, a divorce was obtained, and shortly afterward the parties were remarried. They went to Selma where the wife got most of the property in her hands, when she obtained a second divorce and married a man named Rose, and after he squandered all the money she had, she secured a divorce and returned to her first love.

### Largest Sailing Ship.

The largest sailing ship in the world is said to be in the possession of France. Her name is the Franco. She is a vessel with five masts, on four of which square sails are carried. The length is 344 feet, with beam of 49 feet. The cargo which the Franco could carry is no less than 61,000 tons. The ship is built of steel, her masts and yards being of the same material. She is at present trading between France and the Pacific.

## SCHOONER WRECKED,

### And All Hands Supposed to be Lost.

### CONGRESSIONAL PROCEEDINGS.

### Senator Stewart to Talk on the Silver Question.

### A Siberian Capital Nearly Annihilated.

### Congressional Proceedings.

WASHINGTON, May 17.—A conference was ordered on the Senate anti-trust bill.

The House then went into Committee of the Whole on the tariff bill. McKinley of Ohio asked that the committee would proceed as promptly as possible to act upon the amendments offered by the Committee on Ways and Means, and then other gentlemen who had substantial benefits to offer might be recognized.

McMillan of Tennessee declared that the manner in which this bill was being considered was fair to neither the House nor the taxpayers of the country; that it was utterly impossible to consider and debate a bill carefully in the few days allowed by the rigorous rule proposed by the Committee on Rules.

A heavy pressure in several directions is being brought to bear on the Ways and Means Committee as to the tariff by the conflicting sugar interests.

Representative McKenna has announced that he will submit a proposition looking to a cut of 33 per cent. in the sugar duties, restoring the dividing line from No. 16 to 13, Dutch standard.

California sugar men will accept this heavy cut rather than have the bounty plan adopted. Recruits are expected from the Southern States; meanwhile some of the Western Representatives are preparing to lead a crusade in favor of free sugar, so that the Ways and Means Committee may have to face another revolt next week.

Breckinridge of Kentucky opposed the pending amendment which fixes a duty of 60 cents per square yard and 40 per cent. ad valorem on Oriental, Berlin and similar rugs. After some further debate the amendment was agreed to.

### SENATE.

Stewart gave notice that he would address the Senate on Wednesday on the silver bill.

### Presbyterian Assembly.

By Associated Press.

SARATOGA (N. Y.), May 17.—At this morning's session of the Presbyterian General Assembly, after the devotional exercises, led by the moderator, the greetings of the Assembly were sent to the Assemblies of the Southern Presbyterians, Cumberland Presbyterians and United Presbyterians.

Rev. J. T. Smith, D. D., reported for the committee on the revision of the text of the confession of faith and catechism that they had completed their work on the confession, and asked for further time on the catechism, which was granted.

The Board of Relief for disabled ministers and widows and orphans of deceased ministers presented its thirty-fifth annual report. The number of beneficiaries on the roll is 624—241 ministers, 358 widows and 24 orphaned families, with one widow of a medical missionary at the Ministers' Home at Perth Amboy, N. J. Eighteen families were also cared for, making a total of 642 families, 27 more than last year.

The report of the committee on the methods of making changes in the confession and constitution was discussed at length. Dr. Crosby led the debate in favor of the report, and Rev. R. M. Patterson of Philadelphia against it.

### A Wrecked Schooner.

By Associated Press.

KINGSTON (Ont.), May 17.—A three-masted schooner is ashore near Horse-shoe islands and is fast going to pieces. It is expected that all hands will be lost before assistance arrives, as it is blowing a gale.

### Fatal Boiler Explosion.

By Associated Press.

MARSHFIELD, May 17.—The boiler of the steamer Ville de Tangiers exploded. Three men were killed and four badly injured. The steamer was much damaged.

### Cabinet Factory Burned.

By Associated Press.

GRAND RAPIDS (Mich.), May 17.—The Oriental Cabinet Company's factory, the largest in the city, was burned this morning. Loss, \$150,000.

### A Stricken People.

By Cable and Associated Press.

ST. PETERSBURG, May 17.—Horrible scenes are reported to have occurred during the burning of Tomsk, the Capital of Western Siberia. The place was visited simultaneously by a conflagration and a cyclone, the result being the destruction of three-quarters of the town and the loss of hundreds of lives.

The Cathedral is in ashes, the walls falling and crushing an adjacent hospital, burying the inmates, who were roasted alive.

The garrison brutally refused to render any assistance in saving lives and property.

The Bishops and priests marched through the burning city with their sacred emblems, and administered absolution to the dying and blessed the dead. The panic-stricken sufferers huddled together in the middle of the streets firmly believed the end of the world had come, and abandoned themselves to stolid despair.

The storm was followed by a sudden fall in the temperature, and soon the devastated city was buried beneath a mantle of snow, which added stinging cold to the sufferings of the thousands of shelterless men, women and children.

### The President's Position.

By Associated Press.

NEW YORK, May 16.—Russell Harrison was interviewed to-day and said: "The President stands upon the Republican platform of 1888, which promises a revision of the tariff and additional silver legislation. He is anxious that these promises shall be carried out. I am sure he would sign any satisfactory bill on these subjects."

## DR. PRICE'S CREAM BAKING POWDER

### MOST PERFECT MADE.

From the Professor of Chemistry, California College of Pharmacy.

SAN FRANCISCO, JANUARY 24, 1889.

I have made a careful analysis of a sample of Dr. Price's Cream Baking Powder purchased by me in open market. The results of my analysis show that the Cream of Tartar used in its manufacture is pure, and that it does not contain any foreign substances, such as Alum, Ammonia, Lime or other impurities. I consider it to be pure and wholesome, and in every way a superior article.

Professor of Chemistry in the Cal. Col. of Pharm., University of California.

## 5 O'CLOCK EDITION.

THE Mormons are said to be making many converts among the natives of New Zealand. A contemporary mentioning the fact apparently confounds these natives with the blacks of Australia, and holds that a Mormon church built of such material need not alarm the New Zealanders. The Maories of New Zealand are a very different race from the degraded blacks of Australia. They are fine men mentally and physically, are acquiring education, property and political weight, and Mormon proselytism among them may well disturb the colonists.

A REVOLUTION is said to be imminent in Coahuila in consequence of ill-feeling between Governor Garcia and President Diaz. The former is reported to have made arrangements to meet an outbreak, but the knowledge of that fact will probably defeat the design. The Bulletin says: Diaz has now a strong and trustworthy Federal army to back up his authority, and revolution in Mexico is no longer so easy as in former years. Railroads run on both sides of Coahuila and make it comparatively easy to concentrate troops.

SENATOR TELLER is doing good work in the interest of silver, and it looks now as if we would get some relief from Congress. But nothing but a free coinage measure will suit the people of the West, but the fear that Harrison will veto such a measure makes the friends of the white metal a little shaky about forcing the issue. If Harrison is so tied up by the goldites that he cannot be just to the debtor class, the sooner the people find it out the better.

A NEW YORK capitalist, just arrived in San Francisco from Mexico, heard enough while in that country to convince him that a steam line between Hongkong and Guaymas is among the probabilities of the near future. If any diplomatic pressure can be brought to bear to defeat the project, now is the time to put it on, before a probability becomes an accomplished fact.

CARLISLE'S nomination now seems to be pretty certain. Unless he is a shamefully villified man Kentucky is making a mistake. She is a free trade State, but in this instance seems disposed to condone a fondness for her chief domestic product.

SEVERAL down-East members of the United States Senate are in favor of curtailing the influence of the West in that body, and for this reason are not inclined to push the Idaho and Wyoming admission bills to a passage.

THE President will be governed largely by the recommendations of Judges Field and Sawyer in making the appointment of Circuit Judge for this district, and it is right that he should.

### NEWS NOTES.

Charlotte Liedholm, the leprous Swede at Boston, will be sent back whence she came.

The upward turn of the wheat market induced Toronto bakers to raise the price of bread.

A man died at Bridgeport, Ohio, from the effects of swallowing a chew of tobacco in a fit of laughter.

Board of Trade certificates have increased \$500 in price in Chicago since the abolition of bucket shops.

Buchanan county, Mo., farmers have decided to buy their supplies together instead of individually.

Through telegraphic communication has been established between New York and Greytown, Nicaragua. The city boundaries of Dayton, Ohio, has been extended, and the population, it is claimed, will thereby, be increased to 60,000.

A Cincinnati woman enraged at her husband, determined to ruin him financially. She "shopped" all day, and piled up bills to the amount of \$3,000.

A year ago two Davison, Mich., men went to court over an \$18 item. The case has finally been decided by the Supreme Court and the costs have been \$5,000.

Next month the sale of the interesting original manuscript of Charles Dickens and Wilkie Collins, with some autograph programs of private theatricals in which both took part, will be begun in London.

Alexander Milovanoff, a Russian peasant, was recently on trial at Kiev charged with personating the Savior. The bogus prophet cannot read, but can repeat the entire Bible from memory, having had it read to him.

### MISCELLANEOUS.

#### Peculiar

In Combination, Proportion, and Process of preparation, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "100 does one dollar." Other medicines require larger doses, and do not produce as good results as

Hood's Sarsaparilla.

Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won the title of "The greatest blood purifier ever discovered."

Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has attained such popularity in so short a time. It

Is Peculiar to Itself.

Peculiar in the originality and effectiveness of its advertising, its methods are continually being copied by competitors.

Peculiar in the way it wins the people's confidence, one bottle always sells another.

CATARRH.

Catarrhal Deafness—Hay Fever A New Home Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes.

Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been discovered which cures catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of three cents in stamps to pay postage.

A. H. Dixon & Son, 337 and 339 West King Street, Toronto, Canada.—Christian Advocate.

Sufferers from Catarrhal troubles should carefully read the above.

Strong Language.

J. B. Langham, ex-mayor of North Des Moines, Iowa, said recently: "I have just recovered from a severe attack of grippe. I used Chamberlain's Cough Remedy, and applied Chamberlain's Pain Balm to my breast. These remedies were just the thing in my case. My child had croup some years ago, and we used Chamberlain's Cough Remedy with perfect success, since then we have never been without these medicines in our house. I had a cousin who was a printer and was employed in a job office in this city, where they were printing circulars for Chamberlain. He had a deep-seated cold and a terrible cough, and while setting up the copy he made up his mind to buy a bottle. It cured his cough and that was the first time I ever knew anything of Chamberlain's remedies. I have been strongly in their favor ever since. My own experience and that of my family convince me that these remedies are the best in the world. That is what I think." For sale by Shoemaker & Co.

When on the High Seas.

On the rail, on a steamboat, aboard a fishing smack, or yachting on the coast, Hostetter's Stomach Bitters will be found a reliable means of advertising and relieving ailments to which travelers, mariners and emigrants are peculiarly subject. Sea sickness, ship doctors, voyagers or sojourners in the tropics, and all about to encounter unaccustomed, an unaccustomed or dangerous climate, should not neglect to avail themselves of this safeguard of merit. Constipation, biliousness, malaria, fever, indigestion, rheumatism and affections of the bladder and kidneys are among the ailments which it eradicates, and it may be restored to not only with confidence in its remedial efficacy, but also in its perfect freedom from every objectionable ingredient, since it is derived from the purest and most salutary sources. It counteracts the effects of unwholesome food and water.

DECORATION DAY.

The Following Program Has Been Adopted by the Grand Marshal. The column will be arranged in the following order:

Hastings' Cornet Band. Brigadier-General and staff. Grand Army of the Republic. University Cadets (as escort). Company C, N. G. Patriarchal Militant. Truckee Lodge, I. O. O. F. Reno Lodge, I. O. O. F. Knights of Pythias. Citizens' Band. North on Reno Public Schools. University Students. School for Girls. President, Orator, Poet and Chaplain in carriage. Woman's Relief Corps in carriages. Reno Hose Company. University faculty in carriages. Superintendent and teachers of public schools in carriages. Rector and teachers of School for Girls in carriages. Memorial Day choir. Citizens in carriages. Mounted citizens.

The parade will be formed on Virginia street at 10:30 a. m., with the line facing west and the right resting in front of the Riverside Hotel.

As soon as the line is formed it will be wheeled by fours to the right and will proceed as follows: North on Virginia street to Commercial Row, changing direction to the left; west on Commercial Row to Sierra street, changing direction to the right; north on Sierra street to the cemetery.

Upon arrival at the cemetery ranks will be broken after the line is formed, and the arms stacked at the command of the Marshal. Sentinels will be placed over the stacks and the colors will be rolled up and placed on the center stacks.

After breaking ranks the several organizations will proceed to the vicinity of the graves, where the following program will be rendered:

Sacred music by the band. Remarks by the President of the Day. Singing by the choir.

Ceremony by the G. A. R. General benediction by the G. A. R. chaplain.

Declaration of graves. After decorating the graves the assembly will be sounded and the line will be formed in exactly the same position that it occupied before breaking ranks.

The military companies will take arms at the command of the Marshal. The column will be formed by wheeling by fours to the right and changing direction to the left twice, thus heading the column to the eastern exit. The arms will be reversed shortly before entering the cemetery, and kept so until the halt.

When the arms are reversed the band will play the "Dead March" till the halt.

After leaving the first cemetery the column will proceed by the shortest route to the Masonic cemetery.

Ranks will be broken here as before, and the graves will be decorated while the band plays, followed by singing by the choir.

The line will then be formed at the assembly call, and will be marched to the plaza in front of the Opera House, and, after breaking ranks there, the following exercises will be rendered in the Opera House:

Music by the band. Reading of poem. Song by choir. Oration.

Music by the band. Song, "Star Spangled Banner," by the assembly.

This will close the exercises for the day. By order of the President of the Day. A. C. Ducat, Jr., Marshal.

A PIUTE ATTORNEY.

Johnson Sides Makes Some Practical Statements.

In Justice Young's court yesterday two Indians were convicted of "grabbing" fish from the Truckee river in violation of the State laws for the protection of "wild game and fish."

The evidence was conclusive, leaving Justice Young no alternative but to fine them \$50 each, or send them to jail for 25 days, but before sentence was pronounced Johnson Sides, the Piute diplomat, asked to be heard, a request which the Justice granted, when he proceeded to make the following statement:

"The Indians never knew anything about catching fish with a grab-hook until taught by white men, and right now, this minute, there are white men down the river catching fish with a grab. What in hell is the reason no catchum white man? What for catchum Indian and let white man go?"

Johnson proceeded to say that one of the convicted Indians was the father of two children and the other of one, and that if the fathers went to jail the little ones would starve, and he appealed to the Court to know how they were to be fed. He was informed that the people would have to contribute to their support while their fathers were in lock-up, and this suggestion was followed up by a request from the Indian attorney that he be furnished with a "paper" on Tom Hymers for a sack of flour. The Indians evidently feel, whether it is true or not, that they are being discriminated against by the powers that be.

THE RAGING CARSON.

Fears of Great Injury to Several Carson Valley Ranches.

The Carson Courier says: Sam Longabaugh and Fred Dauberg gate that there is great danger of East Fork breaking the old levee below Fred Berning's and running down the slough and uniting with the West Fork between the Brockliss and Frevert ranches. A big head of water has been running down this slough past the lone pine and washed away about three acres of rich land belonging to Fred Berning. A great many are of the opinion that the water will be higher yet, and in that event it is likely that the levee will give way.

If it does, Chris Rabe, Chris Johnson, J. H. Hickey, William Dangberg and other ranchers will sustain considerable damage by their lands being flooded. A few years ago the ranch was turned out with a force of nearly forty men and a number of teams and worked on the levee to keep East Fork in its regular channel.

DEATH ON THE MOUNTAINS.

A Young Man Loses His Life by Being Crushed by His Horse.

The Tuscarora Times of the 14th inst. says: On Friday, the 23d instant, Perry Gossett, a young man 17 years of age, left the ranch of his stepfather, Herman Paulsen, on Bull Run Creek, for a camp near the head of Silver Creek canyon where his brother Edward and some other men were getting out mining timbers. The camp was about ten miles distant from the home ranch, and the young man's errand was to look after some horses which had been left there. He stopped over night with his brother at the wood camp, and the next morning started on horseback for home, his brother accompanying him about a mile to the summit, the latter returning to camp and the former pursuing his homeward journey alone.

On the 9th instant Edward Gossett and Thomas Frost returned to the Paulsen ranch, where they found to their amazement that Perry had not been seen there since he left for the wood camp several days before. It being supposed at the ranch that the young man was still at the camp in the mountains, no fears were entertained for his safety. Immediate search was made for the missing youth, whose body was found on the afternoon of last Monday in Garat canyon, about half a mile from the place where he left his brother on the 23d instant. It was in a gully caused by water flow, and his hat and a part of his head were only visible when the discovery was made. The other portions of the body were concealed by the horse, which was lying dead upon them. It is supposed that the horse stumbled in attempting to jump the gully, and falling upon the rider, both were killed at the same time.

LASSEN COUNTY, CAL.

The Gallatin Ranch at Horse Lake—Skeadaddle Reservoir.

The Lassen Advocate of the 15th inst. says: Will Minkler and Al. Long returned Saturday night from a week's surveying trip to the Gallatin ranch, at Horse Lake, where they ran lines for the main distributing ditch from the reservoir. The ditch will be about a mile and a half long, four feet wide on top and eighteen inches deep. The reservoir is full, having an area of 250 acres covered with fifteen feet of water. Everything about the ranch is blooming, and there is water enough stored to keep it so through the driest season.

John C. Davis says the violent rain storm of last Wednesday sent another deluge down the Skeadaddle canyon and went over part of the earthwork of the dam, cutting it down, but not doing much damage. He says if they had the dam sixty feet high now the reservoir would fill in a few days' time. It is no longer a question as to the water supply in the canyon, but of the strength of the dam required to restrain it. As the work is under the supervision of a competent engineer and a thorough contractor who understands his business, we have no reason to doubt that the dam will stand any pressure brought to bear on it.

An Annihilated Cart.

About noon to-day Pat Kelly's horse, attached to a light road cart, started from the vicinity of the gas works, turned into Virginia street and landed on the Second-street sidewalk of Chase & Church's corner, where he smashed the cart into kindling wood, and where he was captured. Before the accident, Kelly, without unhitching the horse from the cart, had removed the bridle to allow him to eat some hay, but as soon as the horse was able to see the shape of the thing to which he was attached, he concluded that he was not hungry and lit out.

A Broken Arm.

The Carson Courier says: J. H. Hickey's little girl, Annie, was thrown from a horse last Tuesday evening and had her left arm broken near the wrist. Mr. Hickey, having had considerable experience in treating similar cases, set the fractured bone. The child was doing nicely at last reports.

RENO.

What Water Will Do Towards Making a Town.

The Susanville Advocate contains the following notice of Reno: A drive through the suburbs of Reno is instructive to any one interested in irrigation and its wonderful effects on arid land. Beautiful fields of alfalfa bloom on every side on land which yielded nothing a short time ago but a plentiful supply of rocks. As one gets beyond the limits of the cultivated fields and sees the hopelessly barren nature of the soil it seems almost incredible that water alone could make such a transformation. If our Honey Lake ranchers had to wrestle with the wilderness of rocks which cover the background of the Sierras. Beautiful residences are springing up all over the town, especially in the Powing addition. Pure mountain air, pure mountain water, magnificent scenery and a fine business situation all tend to make Reno a place most desirable to live and be happy in.

Electric Railroads.

The fastest time by an electric railway is, according to the Age of Steel, a mile a minute by a small experimental car. On a street railway system twenty miles an hour is the fastest. The prediction is made by a writer in Scribner's Magazine for April that within ten years there will not be a horse railroad in any prominent city in the country. The number of electric railways now operating and in course of construction in the United States is estimated at 179, representing 1,260 miles of track.

Railroad Project.

There is talk at Portland, Or., of a scheme to buy the Donahue Railroad, which runs to Ukiah, and run a coast line to Astoria and Portland, sending out branches to all important points, giving trackage facilities and opening competition to the Northern and Union Pacific roads to San Francisco. A splendid country would be opened and the revenue in time would justify present investments.

Badly Broken Up.

The east-bound train on the Montana Union Road was derailed near Butte, Mont., last Thursday. The sleeper containing the N. C. Goodwin Company left the track and rolled down an embankment. Manager Duffy and two other members of the company were killed. Goodwin received a scalp wound and was injured on the left leg, but was not seriously hurt.

A Colt With a Herd of Deer.

A yearling Pecheron colt, that had become separated from a band of horses on an Oregon range, was recently found with a herd of black-tail deer, with which it had evidently been roaming all winter, and through following the instinct of those animals in search of food in deep snow the colt owes its escape from starvation.

Gave Himself Away.

A tramp, T. S. Taylor, piled a lot of ties on the Northern Pacific near Linton Station, about seven miles from Portland, Monday night, and then gave warning to an approaching train. He succeeded for a while in being made a hero and in living high until close questioning elicited a confession.

Raisin-Growers' Convention.

The raisin-growers and fresh and dried-fruits producers of the county of Yolo, Cal., met at Woodland to-day in convention for the purposes of establishing raisin-packing and fruit storage. The construction of packing-houses and establishing a shipping depot will be discussed.

Entitled to the Best.

All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family Remedy, Syrup of Figs, to cleanse the system when constive and bilious. For sale in 50c. and \$1.00 bottles by all leading druggists.

Destroying the Fish.

The value of the waters around Stinson Island to the fishermen is gradually decreasing. On the north shore the fish have now been entirely driven out by the petroleum waste that is flushed into the water, and the deadly oil of the lights have now reached nearly all around the island.

Inspection Day.

The Army Inspector will inspect the University Cadets on Monday morning next. The Major wants the boys to be shaved, shingled and shined.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Life Pills, Bucklin's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merit. Wm. Finner, Druggist.

DANGEROUS PURGATIVES.

A City Policeman's Very Peculiar Experience.

Mineral pills and drastic purgatives irritate the mucous coating of the stomach and bowels. In fact their cathartic action is due to their irritation. The danger attending their steady use is apparent. The new laxative principle in Joy's Vegetable Sarsaparilla gets its cathartic action by increasing the mucous secretions and gently stimulating the stomach. It is purely vegetable, does not lose its effect, and is safe to be taken occasionally or continuously. Guss Videman, well known police officer of 1025 Howard St., San Francisco, writes: "After my own experience I firmly believe that Joy's Vegetable Sarsaparilla will cure the most obstinate cases of constipation. Although cured I am still taking it and never had my system so thoroughly regulated. By increasing ordination the dose one has absolute command over himself with this valuable remedy."

Somebody Tells Somebody.

Dr. B. Hamlin, of Lemore, Cal., says a few dozen bottles of Chamberlain's Cough Remedy which he sold there created such a demand for the remedy that he could not well do without it. Those who use it find it so much superior to any other ready remedy they have ever tried that they recommend it to their friends, and that is what makes it so popular. For sale by Shoemaker & Co.

A Sure Cure For Piles.

Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blind, bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs tumors, always itching and effects a permanent cure. Druggists or mail; treatise free. Dr. Bosanko, Piquet, O. Sold by S. J. Hodge, Lincoln.
